## Biography

I am a young and imaginative graphic designer and photographer, with experience in production, design, illustration and photography. I received my diploma from George Brown College in 2006, with a major in Advertising and minor in New Media. My hobbies focus on aesthetics and their impact on society, and need to inject this energy and flow of ideas where I can contribute my skills to a professional company.

I am currently seeking full-time employment with an agency or studio that is creatively challenging and can bring a long committed relationship.
